**STATE OF SOUTH DAKOTA  
BEFORE THE SECRETARY OF  
THE DEPARTMENT OF ENVIRONMENT AND NATURAL RESOURCES**

IN THE MATTER OF THE	)	<b>CERTIFICATION OF</b>
APPLICATION OF	)	<b>APPLICANT</b>
	)	
STATE OF _____	)	
	)	SS
COUNTY OF _____	)	

I, \_\_\_\_\_, the applicant in the above matter after being duly sworn upon oath hereby certify the following information in regard to this application:

**(A) South Dakota Codified Laws Section 1-40-27 provides:**

"The secretary may reject an application for any permit filed pursuant to Titles 34A or 45, including any application by any concentrated swine feeding operation for authorization to operate under a general permit, upon making a specific finding that:

(1) The applicant is unsuited or unqualified to perform the obligations of a permit holder based upon a finding that the applicant, any officer, director, partner or resident general manager of the facility for which application has been made:

- (a) Has intentionally misrepresented a material fact in applying for a permit;
- (b) Has been convicted of a felony or other crime involving moral turpitude;
- (c) Has habitually and intentionally violated environmental laws of any state or the United States which have caused significant and material environmental damage;
- (d) Has had any permit revoked under the environmental laws of any state or the United States; or
- (e) Has otherwise demonstrated through clear and convincing evidence of previous actions that the applicant lacks the necessary good character and competency to reliably carry out the obligations imposed by law upon the permit holder; or

(2) The application substantially duplicates an application by the same applicant denied within the past five years which denial has not been reversed by a court of competent jurisdiction. Nothing in this subdivision may be construed to prohibit an applicant from submitting a new application for a permit previously denied, if the new application represents a good faith attempt by the applicant to correct the deficiencies that served as the basis for the denial in the original application.

All applications filed pursuant to Titles 34A and 45 shall include a certification, sworn to under oath and signed by the applicant, that he is not disqualified by reason of this section from obtaining a permit. In the absence of evidence to the contrary, that certification shall constitute a prima facie showing of the suitability and qualification of the applicant. If at any point in the application review, recommendation or hearing process, the secretary finds the applicant has intentionally made any material misrepresentation of fact in regard to this certification, consideration of the application may be suspended and the application may be rejected as provided for under this section.

Applications rejected pursuant to this section constitute final agency action upon that application and may be appealed to circuit court as provided for under chapter 1-26.

**(B) South Dakota Codified Law Section 34A-6-1.10 provides:**

**“Responsibility and liability of owner or operator.** The owner or operator of a solid waste disposal facility that is regulated under 34A-6-1.1 to 34A-6-1.38, inclusive, is responsible in perpetuity for the solid waste and liable in perpetuity for any pollution or other detrimental effect caused by the solid waste. No person may dispose of solid waste other than mine wastes in this state until the owner or operator of the solid waste disposal facility executes an agreement with the board acknowledging such perpetual responsibility and liability for the solid waste.”

Pursuant to SDCL 1-40-27, I certify that I have read the forgoing provision of state law, and that I am not disqualified by reason of that provision from obtaining the permit for which application has been made. In addition, pursuant to SDCL 34A-6-1.10, I hereby agree to and accept perpetual responsibility and liability for the solid waste disposal at this facility.

## Source Reduction and Recycling Plan

In accordance with South Dakota Codified Laws (SDCL) §34A-6-74 through §34A-6-78, municipalities or other political subdivisions responsible for solid waste management are required to submit a comprehensive solid waste source reduction and recycling plan to the department prior to permit renewal or issuance for any permit application.

For compliance with the sections listed above your facility must also be in compliance with SDCL §34A-6-67. SDCL §34A-6-67 bans certain materials from being landfilled in South Dakota. These banned materials are lead-acid batteries, yard waste, white goods and used oil. The general permit or an individual permit for your facility limits what materials may be accepted and how those materials may be handled.

This document, when completed along with a solid waste permit application will meet the requirements of SDCL §34A-6-74 through §34A-6-78. Please provide the requested information for the materials listed below:

Material	Tonnage Recycled since renewal/issue*	Recycling Company
1. White Goods:	_____	_____
2. Yard Waste:	_____	_____
3. Waste Tires:	_____	_____
4. Other:	_____	_____

\* Estimated weights or units is acceptable

ATTACHMENT  
South Dakota Codified Law

**§34A-6-67.** Landfill waste reduction targets -- Implementation dates. In order to achieve the waste reduction goals provided for under §34A-6-60, no landfill in the state may accept yard waste, lead acid batteries, waste motor oil, or white good appliances for disposal. Office and computer paper, old newspaper, magazines, telephone books, corrugated cardboard, other marketable paper products, containers made from plastic, aluminum and steel, and other municipal solid waste materials that are diverted from landfilling using appropriate methods and technology count toward the waste reduction goal. Appropriate methods and technology includes recycling facilities.

**§34A-6-74.** Filing of solid waste source reduction and recycling plan -- Department review and aid in development -- Hearings -- Updating of plans. Every municipality or other political subdivision responsible for solid waste management shall file with the department by January 1, 1994, a comprehensive solid waste source reduction and recycling plan detailing the method by which the municipality or other political subdivision responsible for solid waste management will comply with the requirements of §34A-6-67 to establish and implement a comprehensive solid waste source reduction and recycling program for its residents. For the purposes of this section, any public or private entity managing the solid waste stream for a municipality or county shall file one comprehensive plan on behalf of its members with the filing requirements of this section. The department shall review each comprehensive plan submitted and may reject, suggest modifications to or approve the proposed plan. The department shall aid in the development of comprehensive plans for compliance with this section and shall make available appropriate forms for the submission of comprehensive plans. The department may hold hearings for the purpose of implementing this section. The comprehensive plan required in this section shall be updated and submitted to the department for approval five years after its most recent approval. The department may, consistent with rules promulgated by the board pursuant to chapter 1-26, require the filing or updating of a plan at other times.

**§34A-6-75.** Plan required for issuance of new or renewed permit. Beginning July 1, 1994, no new permit for a solid waste disposal facility may be issued and no existing permit reissued or renewed unless the permit applicant, in conjunction with all local units of government whose residents, businesses or institutions generate solid waste to be stored or disposed of in the facility, has filed a plan as required in §34A-6-74.
